10	Course Objectives	The goal of morphology is to understand and analyze the structure of the word in the Arabic language, by studying the roots, weights and conjugations that make up words. Morphology aims to determine the rules and principles that govern the change of word forms, conjugations and formation in various linguistic situations and conditions. In addition, morphology provides a solid framework for understanding the Arabic language and helps native speakers to use words correctly and effectively, whether in writing, pronunciation, or correct understanding of texts.
11	Teaching and Learning Strategies	Before learning: creating a scientific environment, activating previous knowledge. During learning: diversification of learning styles, gradation in the difficulty of activities, linking morphology to people's speech. After learning: learning assessment, reinforcement of learning. Specific strategies: repetition, reading.
